CUT RESISTANT SLEEVES

- Premium Protection with High-Performance HPPE: Our Cut Resistant Sleeves are crafted from advanced high-performance polyethylene (HPPE), providing ANSI cut level 4 performance. Industrial-Strength Protection
- With thumb holes, adjustable hook and loop closure, and more elastic knitted fabric, our sleeves provide a snug fit that feels like a second skin. The protective arm sleeves are suitable for both men and women, accommodating a wide range of arm sizes. 19" Extended Length Design: Offers better arm protection than standard 17" .
- These arm protectors for thin skin and bruising offer protection in various daily life and work activities, such as gardening, trim branches and thorny bushes, pick blackberries, operater weed whacker, pet care, metal handling, Industrial-Strength Protection, and food processing.
